MEMORANDUM FOR THE RECORD

SUBJECT : Representative Richardson Preyer, Chairman,
HSCA Kennedy Subcommittee

1. I was to have met with Representative Preyer Friday, 18 August. His office phoned me to say that the morning hearing had been delayed and that he would also be delayed for an unknown period of time. He was scheduled to leave for North Carolina that afternoon and his appointment secretary doubted that he would be able to meet me. I said that I had planned to leave him a paper he could take with him and read during the recess, and that I had another paper to show him should he wish to see it on another occasion. I could still arrange to meet with him long enough to leave the paper with him, which I preferred to deliver personally. He did not call back so I did not get to see him.

2. This morning, at 11:00, Mr. Preyer phoned me from North Carolina to state his regrets for not keeping Friday's appointment. He said he is now involved with Tobacco warehouse people; I replied that this was a familiar subject from my own home. I said that it had been my intention to leave a paper with him that he could read over the recess; it had been declassified for his review. He asked if it could be delivered to his Administrative Assistant, Douglas Copeland. I said it could be arranged, and he undertook to have Mr. Copeland phone me.

3. Mr. Copeland and I have been missing one another in phone calls since then. I plan to wrap the paper in question in order for it to be delivered to Mr. Preyer, with a covering letter explaining it.
